THE COCONUT FOCUS

ABOUT GAMI

A portfolio built around one category: coconut.

GAMI Corporation is the agricultural trading arm of PT Gami Marine Indonesia. This edition removes non-coconut items and presents a dedicated sourcing and export offer for Indonesian coconut products.

CO

What buyers get
One point of contact for source selection, product matching, packing coordination, and export quotation.

From Indonesian coconut regions to global buyers.

Product availability and specifications are confirmed per buyer inquiry.

ORIGIN & SOURCING

Built close to the coconut supply.

Our sourcing story begins in Indonesian coconut-growing communities and continues through collection, sorting, processing, and export preparation.

INDONESIA

We source by product format and buyer specification—not by a generic catalogue.

01 Plantation access

Fresh coconut is selected through local supplier relationships and harvest coordination.

02 Format matching

We match the buyer’s intended use with fresh, dried, oil, shell, or fiber-based formats.

03 Export readiness

Packing, documents, and shipment planning are aligned to the destination and agreed specification.

Product availability and specifications are confirmed per buyer inquiry.

FEATURED PRODUCTS

Products you can see, specify, and quote.

Photo note: Images show actual product and sourcing environments shared by the supplier; the product name on a final quotation follows the agreed technical specification.

Virgin Coconut Oil

Clear oil · retail or bulk format

Fresh Coconut Meat

Food ingredient · chilled / packed

Coconut Shell Supply

Raw shell · industrial feedstock

Shell Charcoal

Carbonized shell material

Product availability and specifications are confirmed per buyer inquiry.

PRODUCT DETAIL

Coconut materials for food, wellness, and industry.

Our core offer can be developed from whole coconut to value-added derivatives. The format below helps buyers start a focused conversation.

Shell charcoal and raw shell-based materials

1. **Virgin coconut oil**
   For wellness, food, cosmetic, and private-label applications.
2. **Coconut shell charcoal**
   For industrial, culinary, and charcoal-briquette supply chains.
3. **Fresh / young coconut**
   For foodservice, retail, beverage, and ingredient buyers.
4. **Dried coconut & copra**
   For oil extraction and ingredient processing.
5. **Coconut coir & coco peat**
   For horticulture, growing media, and fiber applications.

Product availability and specifications are confirmed per buyer inquiry.

EXPANDED EXPORT RANGE

More Indonesian coconut products to explore.

Beyond the photographed items, Indonesia is known for a broad coconut value chain. These are additional product lines that can be discussed according to current supply, buyer specification, and destination requirements.

Buyer starting point: tell us the product, end use, destination, target volume, packing preference, and required documents.

DESICCATED COCONUT

Dried grated coconut for bakery, confectionery, snacks, and ingredient manufacturing.

COCONUT MILK / CREAM

Foodservice and manufacturing formats for sauces, beverages, and ready-to-use products.

COCONUT WATER

Refreshing beverage ingredient or retail-ready supply, subject to cold-chain and packing requirements.

COCONUT SUGAR

Natural sweetener for food, beverage, and wellness applications.

COPRA

Dried coconut kernel for oil mills and downstream processing.

COIR & COCO PEAT

Fiber and growing-media materials for horticulture, erosion control, and industrial uses.

CHARCOAL BRIQUETTES

Value-added shell charcoal format for foodservice and shisha markets, subject to specification.

COCONUT SHELL CRAFT

Shell-based semi-finished or finished items for sustainable lifestyle and homeware channels.

Product availability and specifications are confirmed per buyer inquiry.

QUALITY & EXPORT WORKFLOW

A clear path from source to shipment.

The workflow is designed to keep product identity, condition, and packing requirements visible at every handover.
